Neighborhoods for Responsible Growth

**A grassroots citizens
group**

Working together to protect
our neighborhoods, our
environment, and our quality
of life

Printed on recycled paper

Neighborhoods for Responsible Growth (NRG) is a grassroots organization dedicated to preserving our quality of life in Chapel Hill, Carrboro, Orange County, and vicinity. By working constructively with neighbors, elected officials, UNC, and all other members of our community, ***NRG*** aims to ensure that our environment and the well-being of our fellow residents are respected.

NRG believes that our region can grow without losing its unique character.

NRG is dedicated to:

- Providing a communication network so that neighborhoods can support each other
- Keeping citizens informed about plans for the Horace Williams tract and other upcoming developments
- Encouraging full community input for issues before local governments
- Promoting protection of our air and water quality
- Working to see that our growth matches our resources - that we provide for adequate sewer, water, transportation, and classroom space for now and the future.

NRG formed when citizens working to protect individual Chapel Hill neighborhoods joined together to support each other, share information, and voice common values and concerns. Its members currently come from the following neighborhoods.
